PROOF OF CONCEPT · AUGUST 2026

# CRE AI Agent System

*Proposition | Solution | Demo*

*London Office Market Monitor*

Reliable intelligence, empowering every decision to stay ahead of the market.

By Lee Sheung Chit Ethan

*Do Good and Do Well, with Love*

PROPOSITION

# Monitoring is tedious, yet AI cannot be trusted.

**66%** of CRE professionals use AI weekly or daily; only **5%** trust it enough to inform a deal.

*First American Data & Analytics / DealGround, survey of 255 CRE professionals, May 2026*

**Multiple interrelated areas to be tracked**, while the world keeps moving rapidly.
→ Analysis by hand puts you **behind the market.**

General-purpose AI might **hallucinate**: inventing a figure, getting the arithmetic wrong.
→ **The power of AI goes unused**: the analyst redoes the work by hand.

The solution: **bridging the trust gap** by an AI agent grounded with credible information and robust agentic tools.
→ **This CRE AI Agent System**

SOLUTION

# A Rapid, Reliable, and Relevant AI Agent

| | This system<br>*Deterministic spine, agentic edges* | vs | Published research<br>*Savills · CBRE · CoStar* | vs | General-purpose AI<br>*ChatGPT · Gemini · Claude* |
|---|---|---|---|---|---|
| **Efficiency** | **High**<br>Insight from credible sources in seconds | | **Low**<br>You consolidate and analyse it yourself | | **Low**<br>You verify everything before you use it |
| **Know your portfolio** | **Yes**<br>Analysis matched to your holdings | | **No**<br>Market-wide data only | | **No**<br>Only what you paste in |
| **Credibility** | **High**<br>Named sources: Savills, VOA, EPC register | | **High**<br>Enterprise research | | **Low**<br>Fragmented internet data |
| **Strategic insight** | **High**<br>Specific to the buildings you hold | | **No**<br>You do your own research | | **Low**<br>Generic advice |

# Is The Bailey priced right against its peers?

*"Compare valuation of The Bailey in London with similar age buildings +- 5 year, output into a concise table."*

RELIABLE PRICING ANALYSIS IN SECONDS

**1 Recalled what you own.**

The agent opened the portfolio first, found **The Bailey among your five London holdings**, and took its 1999 completion and City Core address from there.

EFFICIENCY  KNOW YOUR PORTFOLIO

**2 Picked comparable buildings, then measured the gap.**

It pulled every City Core building in the **VOA rating list**, kept the ones completed within five years of The Bailey as you asked, and computed the median and the gap.

CREDIBILITY

**3 Turned findings into strategy.**

The Bailey sits above its peer group, which is **exposure at the next rent review**.

STRATEGIC INSIGHT

Compare valuation of The Bailey in London with similar age buildings +- 5 year, output into a concise table.

✓ Used 2 tool calls

The Bailey is valued at **£616.77 per m²**, placing it near the upper end of its City Core peer set built within ±5 years (1994–2004).

## Valuation Comparison (Built 1994–2004)

| Building | Year Built | Floor Area (sq ft) | VOA Valuation (£/m²) |
|---|---|---|---|
| **The Bailey** (Subject) | **1999** | **115,000** | **£616.77** |
| Procession House, 55 Ludgate Hill | 1999 | 105,200 | £648.89 |
| 45 Gresham Street | 1998 | 170,000 | £642.13 |
| 25 Cannon Street | 2000 | 115,000 | £631.14 |
| Watling House, 33 Cannon Street | 1999 | 86,366 | £559.48 |
| 100 Wood Street | 2000 | 146,485 | £518.14 |
| 80 Cheapside | 1994 | 81,559 | £500.17 |
| Fleet Place House, 2 Fleet Place | 2000 | 92,185 | £455.38 |
| 25 Gresham Street | 2002 | 119,823 | £417.90 |

*Source: Valuation Office Agency (VOA) 2026 rating list, 2024 valuation basis (as of 2026-04-01).*

Across the broader 14-building peer set, The Bailey stands 17.6% (£984,624/year) above the street median of £524.61 per m², creating exposure to tenant renegotiation pressure.

DEMO · OCCUPIER DEMAND DRIVERS

# What's driving demand right now?

RELIABLE DEMAND ANALYSIS IN SECONDS

**1 Resolved what you mean.**

It checked what figures exist on database, then scoped every lookup to Central London at the latest published half.

EFFICIENCY

**2 Pulled six figures, and the deals behind them.**

Active demand, take-up, the share of occupiers expanding, large requirements, space under offer, one sector's take-up, and the named lettings. **Each with its source and its date**.

CREDIBILITY

**3 Found a gap, and stayed with the source.**

Tech & Media take-up is **not published** for this half. Instead of estimating one, it reported the change the source does give: 64% above the long-run average.

CREDIBILITY

**4 Turned findings into strategy.**

The response closes on 99 City Road and Regent Quarter, and on a decision, rather than on Central London in general.
